better

An ethical
investment designed
to shape a better
future!

A socially responsible
investment 

Also known as sustainable, socially conscious, "green" or ethical investing.

Is any investment which seeks to consider both financial return and social good to bring about a social change.

Millennials Seek Social Investing

53% Think about Social Factors
when making Investment
Decisions

63% Utilize Socially Responsible
Investing

67% View Investing as a way to
express their values

Investment Areas:

1. **Greenhouses** - Continual construction will bring us to year round production, and better insure crops
2. **Infrastructure** - As we scale up, buildings, irrigation, and refrigeration must be increased.
3. **Land Acquisition** - As land changes hands from one generation to the next we want to protect nearby farmland.

Lifetime Shares

how they work...

General Definition: Lifetime shares are equity, but in many ways they are hybrid assets that lie between stock and bonds. Most similar to preferred stock, which is a class of ownership in a company that has a claim on its assets and earnings.

Lifetime shares: \$2,500

Dividend: 10% credit within the farms offerings.

Duration: Lifetime

Lifetime Share dividend: \$250 Credit received for each \$2,500.00 share. Farm share dividends entitle a shareholder to \$250 in credit to be used for any items that the farm sells, including online store items and bulk sales. Multiple Lifetime shares can be purchased.

Shares are held for minimum 3 years and up to a lifetime. Shares never gain or lose value. There is a 3 month notification for withdrawal.

After almost 10 years of farm shares, this is our most innovative farm share yet! The most direct way to transfer capital investments from investor to farm.

Cap for 2020 is 20 Shares and only offered privately.
